

# OpenDJ WishList

Is there something that you always wished OpenDJ would do or perhaps do differently ?

This page is intended as a initial open idea pages for new features and changes. Popular and useful will changes will be promoted as an RFE and implemented in the normal way.

Domain	Summary	Complete Description
DSML	Package the DSML front end inside a web container	If we package the DSML front end inside its own web container by default, then it would be easier to run out of the box. Perhaps this can be done when the core server and components are Mavenized?
Wiki	More examples of using OpenDJ with other software	OpenDJ works with many client applications. It would be nice to have more wiki "How do I?" examples. A partial list is in <a href="#">Configure OpenDJ Client Applications</a> .
